HOW/INTERVENTIONS HAVE BEEN IMPLEMENTED UNDER THE SIMULATION

Awareness Campaign

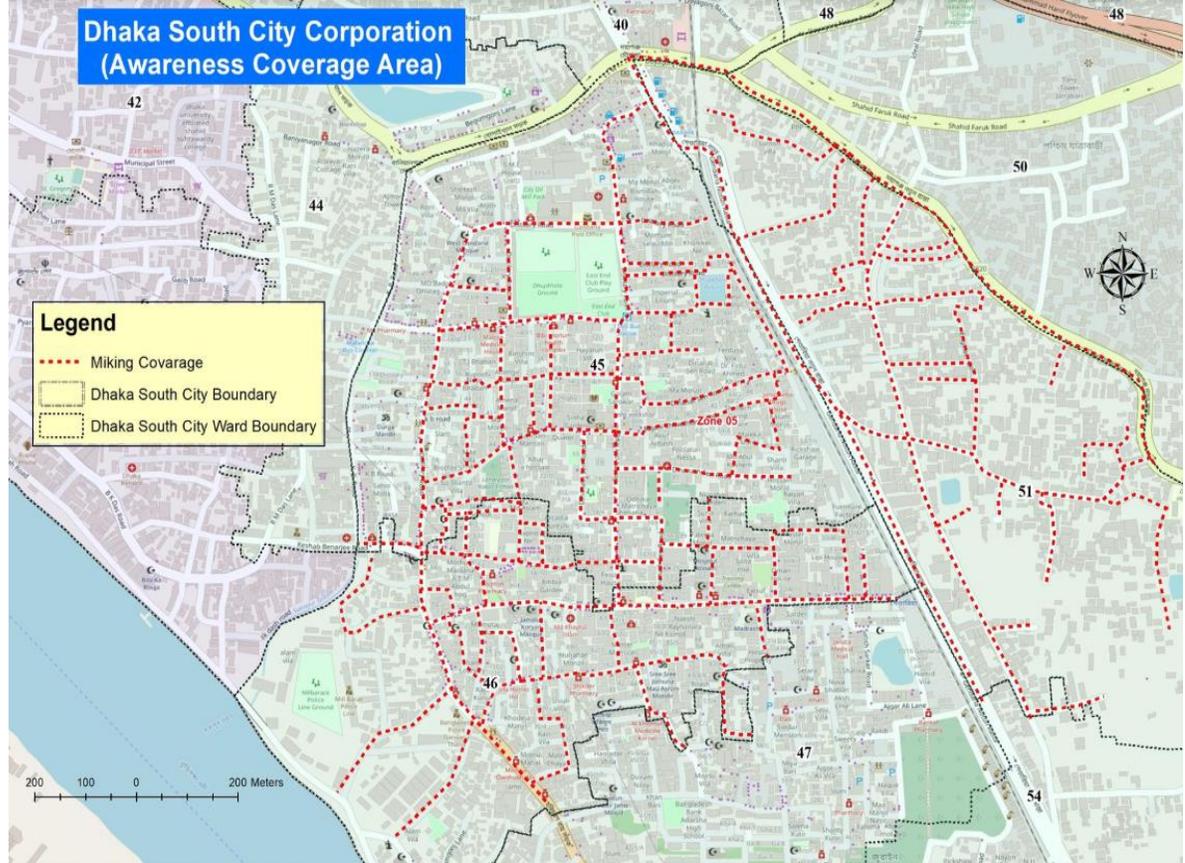

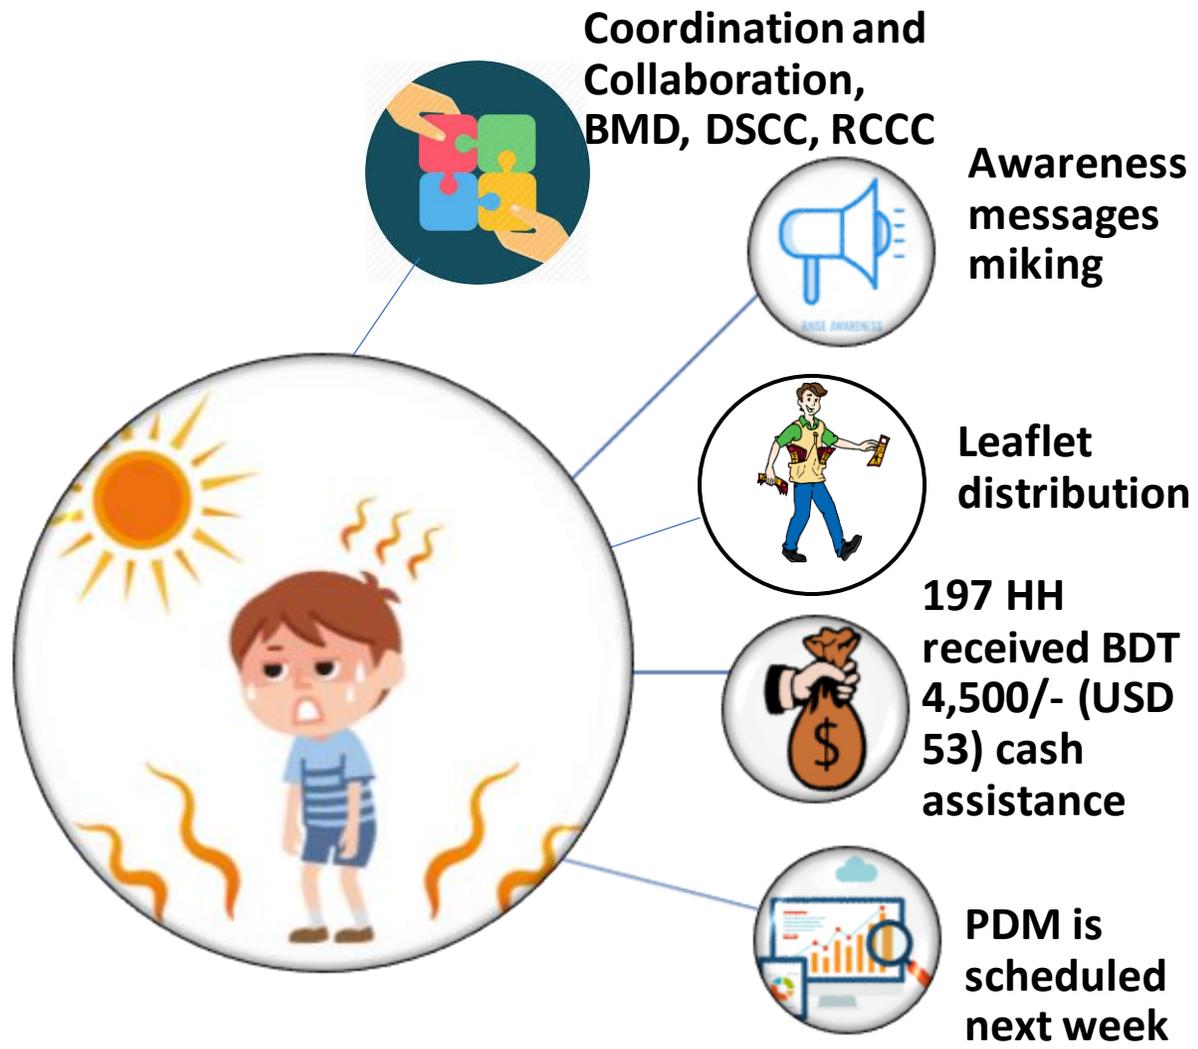

Cash Intervention

Objectives

1. Reduce risk of heat stress and heatstroke
2. Reduce health expenses due to heatwave related sickness
3. Reduce loss of working hour
4. Ensure livelihood/ food

ACHIEVEMENTS/WORKS DONE SO FAR

Challenges:

- Knowledge gaps and lack of awareness and understanding on HW
- Lockdown and bKash account
- Time management

INSTANT LEARNING FROM THE SIMULATION

- ❑ Heat index 38⁰ Celsius considered as threshold of the health impacts of heat wave
- ❑ People are interest in learning about the heat wave and eager to know more about the heat wave/stress as new concern
- ❑ Ongoing heatwaves are having a negative impact on the work and income of day laborers
- ❑ The simulation and piloting have helped the particular government's authorities to be more sensitized on the heat wave/stress which will help in future advocacy on the issue

Thank You
